

Tri-Vortex™

CELL PHONE DISC

Protection against harmful radiation from cellphones

4 Discs included (36 X 18mm)
Protection for at least 2 years

Facts about Electromagnetic Radiation

When you use electrical appliances such as cell phones or cordless phones, electromagnetic waves pass through your body. These waves have been found to negatively affect the body and can cause serious illness.

Protection with Tri-Vortex™ technology

The Tri-Vortex™ Cell Phone Disc brings structure to the chaotic environment created by the electromagnetic waves, significantly reducing the effects of the radiation.

What is Tri-Vortex™ Technology?

The Tri-Vortex™ stainless steel Cell Phone Discs have been treated in a unique Tri-Vortex™ chamber for over 24hrs. The Cell Phone Discs get treated with a totally safe and natural energy field that observes nature's powerful and logical rhythms. This technology significantly reduces the negative effects of radiation from phones and electrical appliances.

Recommendation for use

- Use the Tri-Vortex™ Disc on each cell phone or cordless phone.
- Peel the tape off the back of the Disc and stick the Disc on the back of the phone or appliance where battery or power supply is located.
- The Disc can also be used for iPods, PDA's, CD Players, Game Boys etc.
- For phones or appliances that are used continuously, remove the Tri-Vortex™ Disc after 6 months and replace with a new one – using thin gut or similar material and sliding it underneath to detach the Disc.

www.trivortex.co.za Distributed by:

Tri-Vortex Cell Phone Discs are effective for a period of at least 6 months when in continuous use on a phone. After this time, remove and replace with a new Disc.
