## English Testimonials

### South African Testimonials – 2009

#### **Tom Glover's Dog – Feb 2009**

Dear Anton,

I am the very fit Fine 80 year old Golden Boy whom you met on Sunday. You immediately commented on the stiffness in my one leg. Yesterday morning, while out on a walk, I managed to hurt my right wrist rather badly while clearing away some pesky molehills. I could barely use my wrist and I must admit that I started to feel all the pains in my leg and generally felt stiff and sore all over. Last night you gave my father one of your Trivortex Discs to hang around my neck. I slept very well and, miracle of all miracles, on this morning's walk, I had no pain, I ran around like a 5 year old, I cleared away dozens of those pesky moles and generally had a ball.

Thank you and congratulations on an exceptional product. It has worked wonders for me overnight.

#### **Chris Brewer – Nov 2009**

The cat ("Sparky") is actually doing very well - I honestly think he improved within 48 hours. (He often lies directly on top of the disc now out of choice!)

Chris

#### **Mr Nyles (Dog) – Feb 2009**

Hi there

I put a pet disk on our spaniel, Mr. Nyles, because in his old age his back legs were conking out literally, if he jumped up onto his hind legs they would just slide out from underneath him. He stopped jumping up at all. We were helping him onto the couch and onto the bed – it had even gotten to the point we were putting water in a bowl in the bathroom for him (he used to jump up on the sink and drink from the tap – he would wake someone up if he was thirsty - no skin off his nose.) I can't tell you exactly when the change happened but he has been jumping onto the bed by himself for a while and yesterday when I got home from work he jumped up on me when I opened my car door.

He is ten in human years and his sight is not what it once was, but I have noticed that he isn't walking into things that "shouldn't be there" like an open dishwasher door or chair that has been moved away from a table, as much as he did before he had the disk.

Thank you from all of us... including his highness – Mr. Nyles

#### **Heleen van Zyl – Mar 2009**

I have discovered terribly pain during 2007 in my right hand pulse and it increased severely. During 2008 February Anna gave me one disc and I bought more afterwards - I fixed it with a clear

plaster to my pulse and since then the pain gradually disappeared and did not come back - only when I am not fixing the disc for a few days..... I am using it on my neck area as well - also have years of pain in my neck, due to computer work and degeneration in my spine and neck - it is a wonderful pain solution MUCH better than taking anti inflammatory pills morning noon and night! Thanking you again

#### **Johan de Jager - Dec 2009 (Muscle Gel)**

A friend of the family, thought of me on a recent visit away, and brought home a few tubes of Beneficial Muscle Gel, knowing that I suffer from arthritis I also have two dislocated bones on the side of my right foot, and over the years, this has formed a very hard callous, which I am continually having to file, and this combined with arthritis, has made it very painful to walk or stand. I used the Beneficial Muscle Gel and found that it not only softened the hard skin which pressed against my shoe, but has helped with the arthritic pain as well. I now apply it every night.

Thank you for a unique, natural remedy which I have recommended to others.

#### **Richard Hall – Nov 2009**

I recently burnt myself on my hand whilst removing a dish from the oven. You were there, and gave me some of your muscle gel to use. The wound stung on application, but within a short period of time the wound was no longer painful, and within days the wound had healed completely.

Thank you for a very good product.

#### **Shirley Thomas**

I used the cream on my father's side and hands and so far the arthritis in his hands has gone completely!! He can bend his thumbs which he could not previously do and there is no more pain. Thanks so much!

### Michael van Staden - 55

Michael had a shortening of his Colon ± 10 years ago because of high cholesterol levels. His cholesterol level was over 20. He used Zocor 10 mg per day, which gave him pain in his joints as well as pain and discomfort over the abdomen area. He took 1 box of Rennie's per week for discomfort and several kinds of pain medication without relief. After 1 day on Tri-Vortex Disc his life has changed.

After one month:

- His cholesterol came down fast without Zocor, under 10 (6 – 7).
- He hardly ever takes Rennie's.
- His "Beer Tummy Swelling" came down nicely.
- His joint pains are something of the past – no pain medication required.
- He feels energetic and cleans his own garden and paints again.

Within two months his cholesterol came down to between 5 & 6. The doctor discontinued the prescription for Zocor.

### Bets Coetzee - 70

Bets has Supra Nuclear Brain Palsy – a sickness only diagnosed during the 70's. The sickness is similar to Parkinson's but only worse without the shaking. Bets went to various neurosurgeons in George and in Cape Town and they gave her "tons" of medication with no effect.

She had constant pain in her joints and back and she had a stiff neck. She could hardly walk and fell a lot. She could barely speak as she is unable to get any sound out and her lips appeared tight.

- Within 1 week on Tri-Vortex her pain was "bearable" although her neck was still stiff.
- She walks better and has a shine in her eyes.
- Talking still tight but much, much clearer.
- She sleeps better and is less depressed.
- Only takes pain medication sometimes because she believes it makes her sleep better and because she's so used to taking it.
- She turns better when standing without support.
- She feels she can tackle the sickness better now.
- She did not have a fall for weeks now.
- She can lift her arms above her head without going off balance.

### John Hirie - 72

John is due for a hip and knee replacement and is in constant pain for which he takes pain medication. He had the Tri-Vortex Disc on for 4 days and:

- The swelling went away.
- He went to see his GP and consulted him about the Tri-Vortex Disc because the pain was gone and the swelling down. The GP said he heard about it and if it helps he must wear it permanently. He wears the Tri-Vortex Disc around his waist with a string.
- He does his own gardening and household chores again.
- He feels very energetic.
- Takes no pain medication.

### Johan Anderson - 70

Johan experienced severe pain in back and legs 24 hours a day. He took several kinds of pain tablets 4 – 5 times a day, as strong as Valoron. He saw several orthopaedic surgeons, who all suggested a corset permanently, even to sleep with. He walks with aid of a walking stick.

After 12 hours of Tri-Vortex Disc:

- He could climb stairs.
- All the tense pain vanished.
- He slept like a baby and could easily turn in bed.
- He walked without a walking stick.
- He got rid of the corset.
- Within 4 days he opened a "Kick Boxing" club and is now instructing 5 days a week without any pain medicine.
- He is back at the gym daily.

### **Anna Ungerer - 68**

Anna experienced high blood pressure, rheumatoid arthritis, osteo-arthritis, asthma, and was due for a hip and knee replacement. She experienced constant pain and could not turn over while sleeping. Anna couldn't bend or stand for long periods of time and her right leg and knee were always swollen. She couldn't pick up her arms to do her hair without experiencing pain. Anti-inflammatories affected her eyesight and she had skin allergies all of the time.

Started using Tri-Vortex Disc in December 2002:

- Swelling of legs and knee was down within 24 hours.
- Asthma gone, stopped using ventilating pumps.
- Taking less pain tablets and suppositories within a week. Since January, she took no pain medication.
- Eyesight improved.
- Skin condition cleared up.
- Pain in hip and knee gone altogether. No more swelling of legs and knees.
- Feels like somebody reborn. She's able to work in the garden and bend, go for walks without pain, climb stairs with no ill effects and even her mis-formed fingers function better.
- No stiffness in morning when waking up. She feels wonderful!

### **Mrs ME vd Merwe - 74**

Mrs vd Merwe experienced severe pain in her right hip and right down her leg. She is unable to put weight on her leg and climb stairs. The leg was swollen. She hardly slept at night and couldn't turn in bed. She took Voltaren 75 mg three times a day and had Celestone Soluspan injections every 3 months. She took Panado tablets in between to help relieve the pain.

- After one day on Tri-Vortex Disc, the swelling came down altogether.
- She stopped all pain medication.
- She slept for 8 hours with no pain and could turn in bed without pain.
- She's able to climb stairs.
- She could now place weight on her leg without pain.
- She feels more energetic without all the pain medication and enjoys life to the full again.

### **Hannes Ungerer - 69**

Hannes had 2 heart bypasses and smoking caused emphysema. He experienced extreme gout attacks and used 1 tablet Puricos per day as well as Berotec Spray 4 times a day and Ventolin Spray at night. He also took Serepax 15 mg to help him sleep.

After a few days on Tri-Vortex Disc:

- Stopped Puricos tablets and had no further gout attacks.
- Berotec Spray and Ventolin Spray down to twice a day with no ill effects.
- He is sleeping without sleeping tablets and feels more energetic and less tired.
- No swelling of legs any more and he even snores less at night.

### **Clea Fibricius - 58**

Clea has a tumour at the stem of her brain, which causes a lot of pain and stiffness of the neck. Her left knee was swollen and very painful. She was unable to sleep and took lots of homoeopathic medicines with little relief. She had no energy.

After one night on Tri-Vortex Disc:

- She felt reborn.
- She stopped medication.
- Slept very well.
- Swelling of leg went down all together.
- The tightening in her neck disappeared.
- She goes for long walks without any ill effects.
- Able to work in garden again.
- Feels energetic and good.

### **Dave - 63**

Dave had a 3cm ganglion on the back of his right hand – was there for approx 3 months. The prognosis was to have it surgically removed.

Within 2 days of wearing the Tri-Vortex disc on his hand, the ganglion was no longer visible – to this day.

#### **Corrie Britz - 70**

Corrie had 5 hip replacements without any good effects. He experienced constant pain day and night. He had to walk with the aid of two walking sticks during which he especially experienced pain in his hip joints. At night he was unable to turn in his bed. He took Voltaren and pain tablets like "smarties".

After 4 days on Tri-Vortex Disc, one around the neck and one where he experienced the most pain in his hip he:

- Stopped pain medication except for two Panado's at night (to sleep).
- Able to turn in bed and walks with one walking stick (just "in case").

Tri-Vortex changed his life and he feels alive again!

#### **Mernie - 47**

For the last 3 years Mernie has had an uphill battle with colitis pain and was diagnosed with an auto-immune disorder at the time.

Since January 2003, Mernie has used the Tri-Vortex disc with amazing results.

For the past 3 years Mernie has been spending R3000/month on medication to help for cramps and pain. Mernie is glad to let us know that the Tri-Vortex disc has brought her great relief and that she has not spent 1 cent on medication for colitis since January 2003.

#### **Kobus - 44**

For years Kobus has had unbearable pain in his legs. Kobus has had to accept the fact that the medical experts could not tell him what the causes of his pains were. The pain was so bad that mostly he could not sleep at night and this pain was wearing him down gradually.

In December of 2002, Kobus started using the Tri-Vortex disc together with a rigorous water and salt intake program.

Within 2 days the pains were gone and Kobus felt like a new person again. He was sleeping like a baby and even working in the garden.

Kobus has told us that he has tried everything (pain killers, magnetic bangles etc. etc.) and that for the first time he has found something that really works – he doesn't go anywhere without his Tri-Vortex disc.

#### **Juna - 56**

Juna had 2 very painful knees and had difficulty in walking or standing for long periods of time. She was considering giving up her job because of this. Within 6 hours of using the Tri-Vortex disc, her pain was gone. Juna feels like a new person with the pain almost completely gone.

#### **Jolina Boshoff**

Jolina had bad asthma and within 24 hours of using the Tri-Vortex disc, she stopped using her sprays and tabs. Jolina now only uses sprays and tabs occasionally.

#### **Mrs G. Kelly**

Mrs Kelly was always tired and depressed. Splitting headaches were continuously bugging her. Within 1 hour of using the Tri-Vortex disc she could feel the change. Mrs Kelly now feels energised and full of life again.

#### **Bettie Roussouw - 74**

Bettie's legs were black with fine veins. Within 2 days of wearing the Tri-Vortex disc, her veins started clearing up - she now only has light marks of the remaining veins. The swelling in her legs was gone within 12 hours of wearing the disc.

#### **Joey Booyesen - 58**

Joey had a sore left arm that was very painful at night. Within 3 hours of using the Tri-Vortex disc, the nagging pain was gone.

Joey had previously had her carpal tunnels done with no good effect.

Within 24 hours of wearing the disc, she had no pins and needles in her hands at night.

#### **Frans Booysen - 60**

Frans had a lot of pain in his hands – could not greet anybody by hand without pain. The pain was gone after holding a Tri-Vortex disc in his closed hand for 20 minutes. Frans says his red wine tastes much better too – it is softer and more palatable.

#### **Mrs Bailey - 88**

Mrs Bailey has painful rheumatoid arthritis and could hardly walk. Mrs Bailey was up and about within 1 week of using the Tri-Vortex disc. She says she feels 10 years younger.

#### **Mr A. Jacobs**

Mr Jacobs had a very stiff neck and always had shoulder and neck pain. Within 1 week of wearing the Tri-Vortex disc he could turn his neck both ways with little pain. After 2 weeks his neck was loose – he feels energetic and active again.

#### **Mrs. van Wyk – Stilbaai**

Mrs. van Wyk from Stilbaai had serious sinus and hay fever problems. She also had to go to Worcester for treatment for neck and back pain. Since using the Tri-Vortex disc she has not had to go for treatment. Her sinus and hay fever problem is fine.

#### **Mrs. Briers – Jongensfontein**

Mrs. Briers loved going for walks, but due to terrible pain in her hips, she has not been able to do this for the last couple of years. Since using the disc, she can enjoy taking long walks without the pain.

#### **Mr. Kleynhans – Jongensfontein**

Mr. Kleynhans had very serious hay fever. No injections, nasal sprays or tablets helped. He was desperate. Since using the Tri-Vortex disc, his hay fever problems have gone.

#### **Mrs. van Grypf – Jongensfontein**

Mrs. van Grypf had a lot of pain in her hands and feet. She could not pick up anything heavy in her hands. Within a week of using the Tri-Vortex disc, the pain in her hands was minimal.

#### **Mr. Swart – Riversdal**

Mr Swart had a lot of pain whenever he had to go to the toilet – burning. Within 3 days of wearing the Tri-Vortex disc the pain had gone.

#### **Mr. Fanie Jordens – 65**

He does a lot of garden work; sometime the whole day is spent in the vegetable garden. He experienced a lot of pain and did not sleep well. Since wearing the Tri-Vortex disc, he is doing well and remains positive.

#### **Mr. Johan Gildenhuys**

Had terrible pain in his shoulders, arms and hands. He was tired of always having to take medication, and battled to sleep due to the pain. Since wearing the Tri-Vortex disc he is sleeping well and has little pain.

#### **Mr. Hendrik Olivier – 52**

Had rheumatoid arthritis, by the end of March 2003 he was in a lot of pain. In October 2003 he went to a specialist and was put on a diet and on natural medication, but it did not help. On the 6th of November 2003 he bought the Tri-Vortex disc and also started on the water and salt intake. In 2-3 weeks he started to feel better and within 3 months he was feeling well enough to get up a harvester and stairs. He takes less medication. He can work again and is enjoying life.

#### **Thinus Pieters – 32**

Has had diabetes since the age of nine. He had to have two insulin injections a day. After two weeks of wearing the Tri-Vortex disc he can feel a difference in his sugar levels.

#### **Daan van Zyl – 61**

The Tri-vortex disc makes a big difference – I feel it if I have forgotten to put it on.

#### **Hester Delport**

Has asthma, after 3 days of wearing the Tri-Vortex disk her chest was open, she has a lot more energy. Sometimes uses her pump once or twice a week.

#### **Dr Zaaiman - Gynaecologist**

Had a stiff neck from rugby and a sore left wrist. The Tri-Vortex disc helped a lot and he decided against a neck operation.

**Anton van der Nescht – 50**

Had serious gout and says that using the disc is the best thing that he has ever done.

**Jurg Wolfaardt – 68**

He had back and knee problems; he battled to walk and could not climb stairs. Since wearing the disc he can walk better and climb the stairs.

**Zelda Horn**

It's a miracle disc!!

**Freddie Westerhuis – 12**

Had asthma and a lot of allergies, after two months of using the disc, he no longer has asthma and feels healthy.

**Lewis Wright**

Had pain in his shoulder and couldn't sleep. The second night after using the Tri-Vortex disc the pain was gone and he was sleeping well.

**Sandy Kemp**

Had a lot of pain in her wrists. She was taking a lot of tablets. Within 3 days of wearing the Tri-Vortex disc the pain was a lot better, she sleeps better, her work improved, life has improved.

**Gerda Visagie (pharmacist)**

Her son had asthma, With the Tri-Vortex disc his asthma is slowly but surely going away. He can walk and run again, and has almost stopped using his pump.

**Johan Brummer**

Johan had a lot of pain in his legs. Since using the Tri-Vortex disc he is doing well and is able to sleep without medication.

**Gerda Boshoff**

She had serious arthritis in her hands and was not able to open or straighten them. A week after using the Tri-Vortex disc she was able to open and straighten her fingers and she can put her hands together.

**Nellie Peinaar**

Osteo arthritis in her hands. She says that the day she started using the Tri-Vortex disc was the best day of her life. She no longer uses medication for pain.

**Mr John Kleyn**

(Diabetic & kidney failure) Had gangrene of right big toe. Doctors wanted to amputate right foot. After using the Tri-Vortex disc, the gangrene cleared up and he kept his foot. The ulcer is slowly but surely healing. He has less swelling of the legs. Although he is a very sick person, he is at least free from amputation.

**Celeste Austin**

Had polio as a child. Has pain in right her hip and walks with a limp. After using the Tri-Vortex disc she has less pain and can work in the garden again. She takes no more pain medication.

**Anna Stander (Terminal C.A. Rectum and Colon)**

Had a colostomy, had a lot of pain and discomfort, she used morphine stickers every 2nd day which made her very drowsy. She bought a Tri-Vortex disc and stopped using the morphine stickers on her own. Her pain is bearable and she reaches a much more "quality life." She has more energy to do her daily chores. The swelling around her rectum and vagina also went away after 24 hours.

**Mr le Roux – Plettenberg Bay**

Had a hip replacement and was due for a 2nd hip replacement, after using the Tri-Vortex disc the pain was much better and he slept much better. He decided not to have the 2nd replacement.

**Mrs le Roux – Plettenberg Bay**

Had very bad rheumatoid Arthritis of the hands and ankles. After one day of the Tri- Vortex Disc, she could walk much easier and the pain in her hands was much, much better. Her fingers started straightening again, she sleeps much better and has more energy.

**Dr Muller - Oncologist**

Has very bad rheumatoid arthritis of the hands and feet. Ankles very painful. After the Tri-Vortex disc she stopped anti inflammatory and felt more alive.

#### **Mrs Koen - George**

Has bad arthritis - hands and legs swollen. After using the Tri-Vortex disc, swelling went down and pain much easier.

#### **Mrs A.S. De Kok - Stilbaai**

Her fingers, hands and ankles were very painful from arthritis. She said a miracle happened to her after using the Tri-Vortex disc. She could straighten her fingers after a few days, after one week on Tri-Vortex she could put her hands together again for the 1st time in many years. Her legs and ankles are less swollen, she is very, very pleased with her Tri-Vortex disc.

#### **Mrs Robinson - George**

**Has bad asthma - after 2 days of using the Tri-Vortex disc she stopped with her pumps and inhalers. She feels more energetic.**

#### **To whom it may concern**

It is with great delight that I write this testimonial for the Tri-Vortex disc.

As a cyclist I have participated in the Argus cycling race a few times, but this year I tried something different. I was introduced to the Tri-Vortex disc and I thought I would wear it during the Argus cycle race this year.

Well, I was really surprised that I did my best time ever and that my knees had almost no pain afterwards (normally they are very sore after such a long race). From an athlete's perspective, the effects of the Tri-Vortex discs are very beneficial and I am now convinced that this is a magnificent product - If this product is marketed correctly, every athlete will have one - I am convinced of that.

#### **Keith McFarlane - Rei-Flexology Healing Academy of SA - March 2005**

Testimonial / recommendation

State of the art, High tech, Science Fiction and UNBELIEVABLE are just some of the ways that people are describing this incredible technology.

Using computer generated sound frequencies, these products not only restructure molecules into low surface tension ordered and harmonised structures, but they also increase oxygen in the target site by 140%!!!

#### **ARE YOU GETTING ENOUGH OF THE RIGHT KIND OF WATER?**

Water is the greatest nutritional need of the human body. The reason is simple. We are about 70% water and every single function that takes place in the human body, takes place in water. This means that not only do we use up and therefore need adequate water; but that the body must be able to use it.

Tri Vortex Technology makes the water we drink highly available to the cells, by restructuring the molecules and lowering the surface tension. This simply means that the water tastes smoother and sweeter; much like a good wine.

I don't know about you, but I could not drink my 8 to 12 glasses of water a day. I knew it was important, but my body kept saying I'm drowning!

Now with 'charged' water, I am easily drinking my quota. Even tap water becomes palatable!

If you are serious about health you cannot afford to be without a WATER DISC

The products include stainless steel discs used on the body for pain relief, rapid healing and charging water and foods; pain creams and NOW a cosmetic range that will turn the cosmetic world upside down. The products have a life span of up to 2 years (and you can recharge the discs for free!)

Imagine the BEST fine line cream; the BEST cellulite, stretch mark and varicose vein cream and the BEST thinning hair formula. Now imagine the same products improved 100% through sound technologies. The ingredients are more effective, the cells are able to absorb the ingredients more efficiently, the molecules are restructured and available oxygen is increased.

### **Dr Lynda M Martin (D Hom):**

#### Testimonial – Tri-Vortex Disc

I have a little professional health shop-cum-practice in Clarens (that is in the stunningly beautiful mountainous area of the eastern Free State), which, despite the numerical smallness of the local population, is doing a roaring trade. If you are ever down this way, do call in - my business is right on the main square - Glen Lyon Health.

I am writing this to share some truly wonderful information that came my way in October 2003. For many years I have suffered with a very painful limp, as my left foot became deformed after an accident and my knees suffered crippling osteo-arthritis from old injuries. After my double arthroscopy in '95, I still relied on natural anti-inflammatories (Glucosamine, Chondroitin and others) to keep me pain-free.

These usually worked pretty well, but if I missed a day, boy did I suffer! Fortunately, even though I do all the "wrong" things to myself, I have always been physiologically very healthy (as we all know, a good attitude also plays a huge role). Anatomically, however, I am body-beautiful challenged (I mean, that's the least of my worries in itself, but for the pain!).

To cut a long story short, a gentleman by the name of Anton Ungerer wandered into my shop in October 2003, and we got chatting about all sorts of things. He was on holiday with his family. The conversation wandered on to the importance of (quality) hydration and pain relief. He popped out to fetch something from his boot, and produced a rather ordinary looking thin stainless steel disc (called at Tri-Vortex disc) 45mm in diameter and proceeded to explain its properties. Now, I'm pretty sceptical about 'new-fangled' contrivances, but something made me say to him, "OK, I'll buy a disc, but I'm not going to sell it or even talk to anybody about it before I am completely satisfied that it works, and mine's a pretty tough case."

Well, let me tell you what happened next. I stuck the disc with a little strip plaster onto my left knee, which was particularly painful after standing in the shop all day. Now the loo (believe me this is relevant) is situated down a flight of steps in our shopping centre, and I always walked sideways crab-style down the steps as it was always painful bending my knees to go forwards. Anyway, after half-an-hour of wearing the disc, I needed to go to the loo. It was a particularly busy day and I had lots of distractions. So, I ran down to the loo with some urgency. Yes, you read right. Without even thinking about it, I literally ran down the steps. When I realised what had happened I also realised that my pain had lessened considerably! I also remembered Anton's advice on drinking water, and this is highly relevant to my story. I have been telling people for years about the necessity of drinking plenty of water, but tended not to heed my own advice as much as I should, as I am not a thirsty person by nature. I have to discipline myself to drink water. As you have read in the technological section about the Tri-Vortex disc, the impregnated energies magnify and duplicate the element of oxygen by up to 140%. Now, as water contains two parts oxygen to one part hydrogen, any increase in water intake will enhance the efficacy of the disc.

My brother-in-law is an even bigger sceptic than I am. He injured his knee while doing some DIY around the house and reluctantly agreed to try the disc, pooh-poohing it totally. He 'phoned me, cap in hand, and said, "It galls me to admit this and took some effort to 'phone you, but I have to tell you that the thing worked, and the pain has gone." Goes to show, that even if you don't believe it works, it does!

That evening on returning home I discovered my cat had been badly injured by a dog. His heel had been bitten right through and was swollen to twice its normal size. He was completely immobilised. I applied some balm to the wound and cuddled him in my lap with the disc tucked under his heel for about an hour or so. I left him on the couch and went to bed. The next morning I couldn't find him and feared the worst. I ran my bath water and as I stepped into the bath, he came bouncing in and jumped up onto the ledge, as is his usual habit. The swelling had gone down completely and he was back to his normal self!

Our neighbour raises pigs, and one day she discovered a rather crippled piglet that had been sat upon by his mum. She took the piglet and put him in a cat cage overnight together with the disc between him and the mat. The next day the little piglet was bouncing around as normal. (They have since kept him as a special pet around the yard and he now believes firmly that he is a dog!)

Back to my own story, I decided to experiment with my Glucosamine capsules and for the first week I reduced my dosage from two to one capsule per day, while wearing the disc. I didn't notice any difference. I then decided to stop the capsules altogether, and still no difference. In other words, from the moment I started wearing the disc to now, I have been pain-free. OK, I have experienced the odd ache when I have extended myself, but pain, no.

As I gained confidence from my own and family's experiences, I found quite quickly that I could sell the disc to patients and customers and, also quite quickly, found people interested in becoming agents under me. The word is gradually spreading and I am getting more and more repeat orders as their family members and friends "can't do without one".

Testimony of my Experience with Trivortex Disks – 24/04/05

Before I fell pregnant, I wore a Trivortex disk for various aches and pains, and experienced great relief. So when I fell pregnant, and could not take conventional pain killers, I thought would try the Trivortex disks again.

In my 7th month of pregnancy, I experienced acute back ache in vertebrae L4 and L5, which radiated down the right-hand side of my leg. I wore a disk continuously to relieve the pain. Although the pain never went away completely, it was drastically reduced. If I took the disk off, the pain returned to its normal strength.

One morning, I experienced pain in my psoas muscle - in my front left inguinal area- so I decided to put the disk over the pain. In addition to the pain being relieved, a strange thing happened: the baby, who had been lying on the right hand side of my uterus with her head down, turned towards the disk after 10 mins, and lay on the left side of my uterus – the ideal position for natural delivery. I was curious and so tried wearing the Trivortex disk in the same place on 5-6 separate times thereafter (each time, my baby was lying on my right to start with). Each time I wore the disk in this place, she changed position and moved her head towards the disk.

I do not know how this works, and am curious to know if other mothers-to-be would experience the same effect from wearing the Trivortex disk in this position. Could babies in a breech position, for instance, be encouraged to move into the ideal position for birth in this same way??

Regards

## **Australian Testimonials - 2009**

Anton, I get testimonials all of the time.  
It reminds us of just how powerful Tri-Vortex is.

Here are a couple received of late...

"My daughter has suffered from migraines from 17 years of age to 43. She is now free of migraines totally and has never been happier in her life. No more drugs!"

**Coralie Orme, Rochedale, QLD, Australia**

"I never slept properly at night – anytime. Now since I have a Tri-Vortex disc under my pillow at night, I sleep so good. Thanks to the Tri-Vortex discs, I do not have any tingling feeling in my hands while using the phone and I have a lot more energy.

I use a disc for my water as it tastes great. I also use the treated water to pour over my hair after washing and my hair has more bounce and softer feel. I had a painful foot one night so I put a sock on and put a Tri-Vortex disc inside my sock and my foot was fine the next day.

My flowers last longer in a vase in Tri-Vortex water and a disc under the vase and my plants love it."

**Pauline Fisher, Noosaville, QLD, Australia**

"I had liver pain for years until I placed a disc on my liver and the pain was gone within ten minutes."

» **Diane Hansen, Apollo Bay, VIC, Australia**
